**Subject:** UW Research Records Exemption

**Importance:** High

Hi Emily,

As part of the larger JFC motion that removed policy items from the budget, I believe JFC removed a provision that would have given UW an exception to the open records law for the purposes of certain records related to commercial and scientific research. Could you please draft a motion that restores this exception back into the budget bill (reverses the JFC action on it)?

This would be something that would go in the last day under a Nygren motion.

Thank you.

Andrew
