There's nothing like standing in the middle of a historical museum such as the World War II museum to remind one of what our founding fathers fought for. Because of them and the soldiers who were so willing to give up their lives, we have the freedom today to join together in a public/private partnership to make our state a better place to live, work and own a business.

I can't say thank you enough for making our trip out to New Orleans for the ALEC conference such a success. Thank you also to «CompanyOrganization» for their generous contribution and sponsorship of the Ohio Night event! Because of your help and others like you, the trip to ALEC was made possible for our legislators.

The many speakers heard, and information that my members received at the ALEC Annual Meeting, will be invaluable in leading them towards business, tax and government policies that tend toward the Jeffersonian principles that ALEC espouses. With information that is disseminated at these meetings, my desire is that the Ohio Legislature will pass and repeal laws to make Ohio a much more business friendly state. After all, when your business is a success, it benefits all of Ohio.

Thank you,

John Adams
